

# WHEELS4FOOD

“ The application is **simple** and **easy to use**. It has also enabled us to **streamline our processes** and more importantly, **empower** our partners to share responsibility in ensuring the system operate **smoothly**. ”

- Anson Quek, Executive Director of Food from the Heart

Wheels4Food is a B2B hybrid online and mobile platform that aims to reduce food waste by adopting circular business practices and to address logistics challenges faced by Voluntary Welfare Organisations (VWOs) through effective matching and timely deliveries of the donated items.

## LEARNING OUTCOMES

- 1 Management:** Importance of managing client expectations and changes in project requirements
- 2 Collaboration:** Working together as a team through effective communication
- 3 Technologies:** Connecting stakeholders through leading-edge technologies

## FUNCTIONS

Dashboard

Marketplace

Approval

Inventory

Job Delivery

## X-FACTOR

**300** Supplies Created, **10** VWO Signups,  
**5** Volunteer Signups, **5** Job Deliveries
